6.1 Floor only -Free design stand-

Specific Stand Construction Rules

6.1.1. Any exhibitor with an area equal to or greater than 16 m² opting for free design must send the stand project to the Fair Services Department of IFEMA MADRID before January 20, 2025. Without the presentation and approval of the project, the stand assembly cannot proceed: sectecnica@ifema.es

6.1.2. All companies are required to construct their stand to include at least the partition walls with the pavilion wall and with adjacent stands.

6.1.3. The blind perimeter enclosures must not exceed 70% of each side facing the aisle. To create longer enclosures, they must be set back at least 3 metres inwards and cannot exceed 80% of the facade length. However, the Commercial Department may exceptionally authorise projects with longer enclosures if it considers that there is no detriment to neighbouring exhibitors, upon presentation of the corresponding project to the Fair Services Department.

6.1.4. The maximum perimeter height must be 4m, with one focal element allowed up to a maximum height of 6m, except on the median walls with neighbouring stands. However, the Commercial Department may exceptionally authorise projects with heights up to 5m on the perimeter for stand design and/or image reasons, upon presentation of the corresponding project to the Fair Services Department. By setting back at least 1m, all elements can be raised to the maximum height of 6m.

6.1.5. For safety reasons, the storage of any type of packaging in the pavilions is strictly prohibited.

6.1.6. Assembly Fees to be Paid by the Contractor or Exhibitor:

The company responsible for the assembly of free design stands must pay IFEMA MADRID, before commencing such work, the corresponding assembly fees for services provided during the assembly and disassembly period of the fair. We recommend contracting this service through the new Expo Area one week before the start of assembly to avoid surcharges. Contact sectecnica@ifema.es

- We offer our exhibitors a service that includes the removal and management of the waste they/their assemblers generate. (check our fees in Exhibitors' Area).

Carpet recycling:

IFEMA MADRID recycles 100% of the carpeting used in aisles and communal areas. To do so it has been essential to change our assembly and disassembly process, that affects the entry and removal of goods (check the corresponding item) . Furthermore, means that it has to be laid in strips instead of covering the entire surface area as was previously the case. This means we can guarantee its conversion into a new raw material for the subsequent manufacture of other products.

SUSTAINABLE MOBILITY:

IFEMA MADRID offers access to public transport close to its facilities (metro and bus), parking for electric cars with 100% renewable electricity charge points, as well as a parking area for bicycles and scooters

GUIDE TO SUSTAINABLE PARTICIPATION IN TRADE FAIRS/EVENTS:

IFEMA MADRID has published its Guide to Sustainable Participation in Trade Fairs for exhibitors on its website. We recommend you read it before starting to prepare your participation:
